PROFESSIONAL SUMMARY

Motivated Bachelor of Computer Application student with hands-on experience with full-stack web development. Proficient in the MERN stack with demonstrated ability to build scalable web applications. Strong foundation in data structures, algorithms, and problem-solving with a passion for learning new technologies.

EDUCATION

Bachelor of Computer Application
Integral University, Lucknow | August 2023 - August 2026
CGPA: 9.2/10.0

Intermediate (PCB with Computer Science)
Rani Laxmi Bai Memorial School, Lucknow | April 2022 - March 2023
Percentage: 77%

TECHNICAL SKILLS

Programming Languages: C, C++, JavaScript, Python

Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Socket.io, Stripe API

Core Competencies: Data Structures, Algorithms, Object-Oriented Programming (OOP), Operating Systems, RESTful APIs, Full-Stack Development

PROJECTS

Shopster - E-Commerce Platform | *MERN Stack*
GitHub: github.com/ZEK-XCPY/Online-Cloth-Store

- Developed a full-stack e-commerce web application for online clothing purchases using MongoDB, Express.js, React.js, and Node.js
- Implemented secure user authentication with JWT tokens and protected routes for enhanced security
- Integrated Stripe payment gateway for secure online transactions and order processing
- Designed responsive UI with clean navigation, product catalog, shopping cart, and checkout functionality

Maple Chat - Real-Time Chat Application | *MERN Stack*
GitHub: github.com/ZEK-XCPY/Maple-Chat-App

- Built a real-time messaging application enabling instant communication between users using Socket.io for WebSocket connections
- Implemented user authentication system with secure login/signup functionality and session management
- Designed MongoDB schema for efficient storage and retrieval of user profiles and message history
- Optimized backend API performance to handle concurrent real-time connections with low latency
